Professional Summary

Motivated Web Developer with hands-on experience building responsive, user-friendly applications. Skilled in **Next.js** and Angular for frontend development and experienced with backend technologies, including **Java (Spring Boot)** and **Node.js (NestJS)**, with strong proficiency in **TypeScript and JavaScript**, plus basic knowledge in **C**. Solid foundation in **HTML** and **CSS**, with experience creating interactive UIs, integrating APIs, and optimizing application performance. Comfortable working independently and collaborating with small teams to deliver production-ready, scalable solutions. Passionate about continuous learning and delivering high-quality software.

Skills

Languages: JavaScript (ES6+), **TypeScript**, HTML5, CSS3, **Java**, SQL, C

Frontend: Next.js, React.js (Proficient), Angular (Familiar), **React Native**, Tailwind CSS, GSAP, Framer Motion, Three.js

UI/UX Tools: Figma, Responsive Design, Web Accessibility (A11y)

API Handling: RESTful APIs, Axios, Firebase SDK

Backend: Node.js, NestJS, Firebase Functions, Spring Boot

Databases: MongoDB, Firebase Firestore, MySQL, MSSQL, PostgreSQL, Supabase (Auth, PostgreSQL, Storage)

Tools & Platforms: Git, GitHub, Vercel, Netlify, Pxxl, Postman, Visual Studio Code, Docker

Projects

Hospital Management System (HMS) – Desktop Application

Desktop-based hospital management solution for handling patient records, appointments, staff management, and billing.

Key Features: Patient registration, appointment scheduling, staff modules, and data management

Tech: **Java · JavaFX · MySQL**

Campus-Connect App

College event information system with event registration, search, and responsive design.

Tech: **React.js · Tailwind CSS · Framer Motion**

Live Link: campus-connect-hazel-eight.vercel.app

E-Commerce Furniture Shop

Scalable e-commerce site with product pages, login, dashboard, and Firebase backend.

Tech: **React.js · Tailwind CSS · Firebase Auth · Firestore**

Live Link: ***hudson-furnishings-chi.vercel.app***

Developer Portfolio

Interactive portfolio showcasing projects and animations.

Tech: React.js · GSAP · Tailwind · Framer Motion

Live Link: ***thomas-abas.web.app***

Eventping

Event management platform similar to Luma, designed for organizing events and meetings, sending reminders to guests and participants via integrations with WhatsApp, Telegram, Discord, and Gmail, and supporting check-in features.

Key Features: Event organization, reminder notifications, multi-platform integrations, and attendee check-in

Live Link: ***eventping.xyz***

Talentforge

AI-powered platform built with Java, Hugging Face AI, and Next.js, focused on resume scoring, application tracking, and enabling hirers to post jobs on platforms like LinkedIn and Upwork with one-click functionality.

Key Features: Resume analysis and scoring, applicant tracking system, and streamlined job posting integrations

Tech: **Java · Hugging Face AI · Next.js**

Live Link: ***talentforge.cc***

Blox

AI-supported professional branding system (startup project) for creating optimized SEO portfolios, analytics tracking, and related features, built using Java and NestJS microservices.

Key Features: SEO-optimized portfolio creation, performance analytics, AI enhancements, and branding tools

Tech: Java · NestJS (Microservices)

Live Link: ***bloxplatform.org***

Envvy

Secure platform acting as the GitHub for environments (envs), allowing users to manage envs with commands similar to GitHub but enhanced for security.

Key Features: Environment management, Git-like CLI commands, secure handling of envs

Tech: **Node.js (CLI) · Next.js (Frontend)**

Education

Aptech Learning / Diploma in Software Engineering
MONTH 2024- MONTH 2027, Nigeria

Diploma in Software Development / Full Stack Engineering

Certifications & Training

- **Responsive Web Design** – freeCodeCamp (2024)
- **JavaScript Algorithms & Data Structures** – Aptech (2024)
- **TypeScript for Web Development** – Aptech (2024)
- **Front-End Development Libraries** – Aptech (2024)
- **React (Beginner to Advanced)** – Aptech (2024)
- **Angular Essentials** – freeCodeCamp (2025)
- **Databases with MongoDB & SQL** – Aptech (2024)
- **Java Programming** – Aptech (2024)
- **C Programming Fundamentals** – Aptech (2024)
- **Git & GitHub Version Control** – Aptech (2024)
- UI/UX Design Fundamentals – freeCodeCamp(2025)
- Aptech Diploma in Full-Stack Development/Software Engineering (In Progress)

Soft Skills

- Fast Learner
- Problem Solver
- Team Collaboration
- Detail-Oriented
- Self-Motivated

Interests / Extra Activities

- Open-source contribution
- UI/UX design exploration
- Competitive programming / Hackathons
- Tech blogging or tutorials
- Currently building a startup
